

# CREEDY VALLEY PROTECTION GROUP

13<sup>th</sup> June 2016

Dear All,

## **Preservation of Pedlars Pool, Creedy Valley**

The Creedy Valley Protection Group (CVPG) represents countryside lovers from Mid Devon who are concerned with proposals to build a housing estate of 330 houses and travellers sites in the unspoiled Creedy Valley.

The CVPG is extremely anxious to prevent the desecration of our beautiful Devon countryside and in order to do so we need to employ experts who specialise in ecological and environmental preservation, floodplain management, highways and traffic infrastructure and other technical issues. We are aware that Gleasons, the developers, and local landowners have already instructed their own specialists to prepare an urban drainage plan, environmental impact assessment and, probably, a site character assessment which is important for any planning consent to be issued. We will of course do everything possible to counter these proposals with specialist reports of our own.

I write to you to ask for a contribution to the cost of instructing experts and consultants of our own in order to help in our protection of the Creedy Valley and this we anticipate will amount to several thousand pounds.

Please will you help? You have previously expressed an interest in our campaign and I hope that you do not mind my approaching you in this way. Any donation will be greatly appreciated – with your kind support we will be able to make the strongest possible case for the preservation of the natural beauty of Creedy Valley for ourselves and generations to come.

Yours sincerely,

Richard Barnes  
Treasurer  
C.V.P.G.
